

Release Notes | Changelogs

Xcitium Platform

Scheduled for December 2022

This document outlines the upcoming release schedule for Xcitium products as follows:

 **Agents:**

Effective on Thursday December 29th, 2022 at 07:00 AM GMT

XCITIUM CLIENT SECURITY AGENT

IMPROVEMENTS

- Self Protection module is enhanced to provide full protection against unintended access/modification on Xcitium agent processes and services.
- Improvement in the naming of restored files.
- Improvement in restoring quarantined files without overriding existing original files.

BUG - FIXES

- Fixed the issue of Client Security Agent Autoruns Scan & Monitor doesn't detect scheduled task items correctly in case embedded code contains two valid paths.
- Fixed the issue of incorrect file system path interpretation by the Client Security Agent driver when VHD exists.

APPENDIX

NEW AGENT VERSIONS

- Xcitium Client Security: 12.13.0
