ABOUT US

Comodo is the world’s leader of next-generation open-source cybersecurity, with the industry’s most disruptive innovations.

We help customers stop breaches with groundbreaking isolation technology that neutralizes ransomware, malware and cyber-attacks. Our complete cloud-native framework delivers a zero-trust architecture with active breach protection for the most comprehensive defense against zero-day threats. Comodo’s cybersecurity products maximize intelligent sharing between every component of the platform, therefore providing superior security. We are the only company that analyzes and gives a trusted verdict for 100% of files on a network.

ACTIVE BREACH PROTECTION FOR YOUR BUSINESS

Comodo provides Active Breach Protection in a single platform. No one can stop 100% of threats from entering their network so Comodo takes a different approach to prevent breaches.

ENDPOINT SECURITY

It is scientifically impossible to stop 100% of cyber threats from intruding your network. Only Comodo’s Advanced Endpoint Protection can provide invulnerability to your endpoints from these unidentified cyber threats.

MANAGED DETECTION & RESPONSE

Resolve the growing shortage of cybersecurity experts with our 24hr SOC. Comodo’s security experts hunt for vulnerabilities, continuously monitor your IT systems for indicators of compromise, and successfully block advanced threats.

NETWORK SECURITY

Protect your sensitive data from being exposed by insiders, control and monitor web traffic and protect users from malicious emails. Stop attacks around the clock at the boundary level to protect your most critical assets.
